## THE ARCHIE ROOSE-

VELTS are now in New York on home leave from their post in Madrid. They will come to Washington on the 10th and remain until the 30th before returning to Spain. While there they will stay with the Kermite Roosevelts, and will be feted high, wide and handsome. . . . Both, 'tis reported, have a Spanish look. Lucky is wearing her hair swept back into a low chignon; while Archie has acquired a mustache. 'Tis not reported, however, whether he has also acquired the Spanish custom of first tickling with the mustache when kissing a lady on the cheek.
